INTRODUCTION

Plankton is at it again - scheming to take over Bikini Bottom by enacting yet another of his devious plans. This time, he manages to create an army of mindless fish robots using an invention he calls the Duplicatron 3000. Unfortunately, he forgets to turn on the "Obey Plankton" switch before activating the Duplicatron. On the loose without Plankton to guide them, the robots begin running amok in Bikini Bottom and quickly take over the Chum Bucket. Before long, the whole town is literally swimming with robots -- from Downtown, to Jellyfish Fields -- even the Mermalair! Worst of all, the robots are scaring away customers from the Krusty Krab and making off with all the delicious Krabby Patties! Maybe Plankton's sinister plan is working after all! It looks like SpongeBob will have to save the day, and if anyone can clean up this mess -- it's the sponge!

CHARACTERS

SPONGEROR SOR ARREADIS

Our fearless here is a well-meaning and optimistic sponge, but trouble seems to follow him wherever he goes. SpongeRob loves his job, is a fry-cuble at the Krusty Krab and enjoys jellyfishing, bubble art karate, and the pursuit of the perfect Krabby Patry. When Mr. Krabs usks him to help stop the robots. SpongeBob happily accepts the challenge. Of course, he will get a little help from his friends Patrick Star, Sandy Chenks, Squidward Tentacles, Mermaidman, Gary and Mystery, the wild seahorse!

ROBOTS

Many different robot varieties have been set loose in Bikini Bottom, thanks to Plankton's Duplicatron 3000. Even worse, the robots regenerate whenever SpongeBob manages to defeat them! Since the robots can't be destroyed completely. SpongeBob must get to the Chum Bucket and shut down the Duplicatron 3000. Until then, he can temporarily deactivate and reactivate some robots by hitting them with bubbles. He can use others to bourse off of or catch a quick ride. However, some robots may be a bit tricking to handle.

CHARACTERS

GenericBot: These brainless sentiles are relatively harmless and can be bounced off of with ease.

SpringBot: These little bouncers can put a spring in SpongeBob's step.

SpikeBot: It probably isn't wise to bump into one of these bots, but it is okay to bounce off of their heads.

TemperBot: A simple excuse me won't work on these bots if you bump into them, they will complexely lose their tempers!

CHARACTERS

Electrichot: SpongeBob will get quite a short if he touches one of these when it's fully charged. Electrifying!

BigBot: This overgrown but is too heavy for SpangeBob to push, and too big for Mystery to chomp. It's probably best to stay out of his way.

ChargeBot: These bots will norket toward SpongeBob if they are disturbed.

FanBot: SpongeBob will be totally blown away when these guys are switched only

PlatformBot: These buts can help by carrying SpongeBob to places he can't normally reach.
